Subject: RE: Summary of findings for upcoming report on the environmental and human rights impacts of avocado exports from Mexico

Dear Brad,

We were wondering if you received our previous email in good order.

As Nature's Pride, we take allegations very seriously. For that reason, we would like to kindly ask once more to send over the evidence you refer to, so that we can have a good dialogue on this with Avo Select.

As mentioned in the Due Diligence report, we are currently working on our 2028 Strategic Plan for People & Nature, which will be launched in early 2024.

To give you a better idea of what this includes, we would like to inform you that our focus themes amongst others are working conditions, water, climate (in line with the forest, land and agriculture guidance from SBTi) and biodiversity.

In this process, we are also connecting with external parties including NGOs to have a holistic approach.

We are open to explore a potential connection with you on this as well once we are reaching the final stage in this early 2024.

We look forward receiving the evidence so we can take this up with Avo Select.

Met vriendelijke groet, Kind regards,

Daisy van Meurs

Dear Brad,

Thank you for your email.

We would kindly ask you to share the documentation with the evidence to us, so we can better understand what you refer to.

From the email we understand that you are not yet familiar with our due diligence approach. We like to inform you about our due diligence report with the following link:
