Number : 600.4.5.3/1136/LH.4/IX/2023 :  
Attachment 1 (one) Document  
Regarding **:Recommendations for Interim Results Report  
Boki Maruru Area Investigation Team .**

To

**Dear Director. PT. Weda Bay Nickel**

in -

Referring to letter number 600.4.5.3/1120/LH.3/IX/2023 concerning Recommendations for Temporary Cessation of All Mining Activities, that based on the interim results report of the Integrated Team consisting of the North Maluku Provincial Environmental Service, North Maluku Provincial Forestry Service, BPDASHL Ake Malamo , the Central Halmahera Regency Environmental Service, which carried out field monitoring and evaluation from 1 to 12. September 4, 2023 provides a temporary conclusion that the activities of PT. Weda Bay Nickel does not influence either directly or indirectly the change in water color in the Boki Maruru area in Sagea village, North Weda District, Kab. Central Halmahera. To PT. Weda Bay Nickel is able to continue its activities while still paying attention to and carrying out its commitment to environmental management and control in its operational areas.
